Chicago Heights, Illinois 60411

ILL. E.P.A. - D.L.P.C.
STATE OF ILLINOIS

ATTENTION: Mr. Leonard C. Triem

Gentlemen:

This will acknowledge your letter dated September 10, 1974 and received by this Agency September 11, 1974, which requested a revision of Special Condition (1) of Supplemental Permit No. 74-122 regarding the placement of a soil cover on the deposited lime sludge.

In lieu of waiving said condition, the following Revised Condition (1) should clarify the intent of the original condition and, also, provide a viable sludge disposal method.

Revised Condition (1) "Sludge shall be deposited in shallow layers in an area of the fill remote from daily operations. After the sludge has dried and not more than one year after placement, the sludge shall either be removed from the drying area and utilized as cover material per Condition (2) or covered with one foot of soil."

This letter is an addendum to Supplemental Permit No. 74-122 dated September 4, 1974, and the above Revised Condition (1) supersedes Condition (1) of the said supplemental permit.

Very truly yours,

ENVIRONMENTAL PROTECTION AGENCY

Carolyn H. Olsen, Environmental Engineer
Permit Section
Division of Land Pollution Control
